Subject: Microsoft Settlement: No Good!

The proposed settlement is a bad idea.

I agree with the problems identified in
Dan Kegel's analysis (on the Web at
<http://www.kegel.com/remedy/remedy2.html>).

I believe that the court should reject the proposed USDOJ vs Microsoft
final judgment and instead adopt the remedies in the proposed final
judgment of the nine states as the final judgment.
Sincerely,

Susan M Hansen
